PROFESSIONAL SUMMARY

Highly motivated programmer with passion for development and innovation. Experienced working with robotic, Machine learning and full stack web development

KEY SKILLS

- Python
- ROS2
- Pytorch
- Linux
- Electronics
- HTML/CSS/JS
- Vue
- Springboot
- NestJS
- Rust/Axum

PROFESSIONAL EXPERIENCE

Huawei ICT 2024-2025 Competition

Role: Technical implementation

- Design robot using SolidWorks
- Experienced using raspberry Pi for AI and robotic application
- Used YOLO for object detection

Cambodian Learning Platform

Project Leader

- Nestjs backend, Vue Frontend
- Cloudflare tunneling
- S3 R3 Bucket storage, Resend API
- Site: reanot.com

Member of DCLab and in ITC02 Robocon 2024

Software and AI department team

- Specialize in coding using python
- Image processing for object detection and classification using ultralytic yolov9
- Robot communication with ros2 framework
- Experienced using basic electronic component

Robocon 2024 and 2025 Scoring System

Backend programmer

- Implemented simple websockets connection with python for real time data communication
- Handle game logical processes and forward data to the TV crew

AWARDS AND CERTIFICATION

Certificate of Achievement in Huawei ICT regional competition

Huawei ICT innovation track regional grand prize winner

Certificate of Achievement in Huawei ICT global competition

Huawei ICT innovation track global third prize winner

Letter of commendation in Robocon national competition

Robocon Competition 2024 national winner ITC02

Cambodia Public Innovation Award

2nd Place Team BlindSense

AI Ready ASEAN National Competition

2nd Place national 2026

ACADEMIC HISTORY

Institute of Technology of Cambodia

- 2023 - Now
- GPA 3.0

Hun sen Chamkar leu high school

- 2017 - 2022
- Baccalauréat: B
